Spring, 2010

To our friends as customers,

Our commute to and from work no longer bound by dark on both sides, we realize that spring has arrived. This 'natural renewal' awakens in us the reminder that the traditional start of the spring construction season is almost here. For the first time in a few years, there are valid reasons to expect some uptick in activity.

There are several signs that the vise-like grip that has been the hallmark of this recession is beginning to ease. Locally, there is an excess of home, building, and grounds maintenance/repair that has been long deferred. We further expect that savvy property owners and managers will recognize that the short term deferrals have started to have long term consequences, and act accordingly.

New construction starts (there are a few) and long delayed renovations are also expected to fuel the need for qualified, experienced contractors. While the recession has taken a toll on everyone, few have had things more difficult than those in the construction industry. Those that have survived have done so through proper positioning, flexibility, diligence, talent, and depth. Not surprisingly, these same survivors have had as founding hallmarks the attributes of honesty, honour, and have maintained their ethic in the face of adversity. As we've always targeted our services to a set of clients representative of the qualities described above, we feel that this new season represents an opportunity for our mutual success, as part of your team.

We're ready to serve your needs. Our staff averages over 15 years of service experience. Our shelves are stocked, new equipment is arriving daily, and we are leaders in the constant refreshment of the rental fleet. When your needs include equipment rental, repair, purchase, or service, please continue to count upon us for quick responsive attention.

Respectfully,

Craig, Paul, Jeff H., Ryan, Pat, Dom, Jeff C.

We're here to serve you Monday thru Friday from 6:30 AM to 5:30 PM and on Saturday from 7:30 AM to 5:30 PM.

The last couple of years have been very difficult on everyone involved in the construction industries. As we are hopefully beginning to exit the recession that has gripped our country, we remember to remain thankful to our steadfast friends, and all our customers, for their support. We would like to extend our thanks for your loyalty, and friendship.

Please enjoy a safe, productive, and profitable 2010 construction season. We look forward to seeing you soon.

Thanks, from your ABC Rental Center Crew.
